PROFESSIONAL SUMMARY

Results-driven Frontend Developer with nearly 2 years of experience building scalable, high-performance web applications using ReactJS, JavaScript, HTML, and CSS. Committed to delivering responsive, accessible, and user-centric interfaces. Improved application performance by 40%, benefiting over 700 users. Passionate about implementing UI/UX best practices, optimizing frontend architecture, and staying current with industry trends.

WORK EXPERIENCE

PERFIOS SOFTWARE SOLUTIONS PRIVATE LTD. – Bengaluru, India

Member Technical Team

Apr 2024 - Present

- Revamped UI of a key internal platform using ReactJS, improving performance and enhancing usability for over 700 users.
- Reduced UI-related bugs by 30% by implementing reusable components and aligning with WCAG accessibility standards.
- Delivered 500+ lines of clean, testable, and production-ready code aligned with modern development practices.
- Developed new UI features based on feedback, directly benefiting over 50 end users.
- Mentored 2 junior developers on frontend tasks, code quality, and onboarding processes; led regular code reviews.

Software Development Engineer

Aug 2023 - Mar 2024

- Enhanced responsive UI design with cross-functional teams, increasing user engagement and task completion rate by 35% across desktop and mobile platforms.
- Implemented multilingual translation features using location-based detection, increasing regional user trust by 30%.
- Refactored legacy UI with custom media queries and layout enhancements, improving mobile UX scores by 25% across key user flows.
- Integrated global theming, including dark mode, resulting in a 20% boost in user engagement and improved UX consistency across platforms.
- Conducted weekly peer code reviews, reducing UI bugs and improving code quality through consistent implementation patterns.

BHARAT ELECTRONICS LTD. (BEL) – Bengaluru, India

Frontend Intern

Aug 2022 - Sep 2022

- Designed an interactive dashboard using HTML, CSS, and SQL, increasing team reporting efficiency by 20%.
- Streamlined internal data workflows, reducing report generation time by 30%.

PROJECTS & RECOGNITION

- Received the “Perfios Wow” award for 3-month UI revamp under tight deadlines, improving completion rate and reducing bug reports by 30%. [Recognition Post](#)
 - Developed a personal portfolio showcasing projects built with ReactJS, responsive design, and performance-optimized UI patterns. [GitHub Portfolio](#)
